

MUHAMAD FAUZAN PRATAMA

Software Engineer / Game Developer

► ABOUT ME

I am a passionate and motivated vocational high school student majoring in Software Engineering (RPL) with a strong interest in technology, web development, and software solutions. I enjoy learning new programming languages, exploring innovative technologies, and solving real-world problems through coding. With a strong work ethic, quick adaptability, and a collaborative mindset, I am ready to learn and deliver value to the company.
